

# SZFTS

## SLIDER LIFT FOR SUPERMARKET DELIVERIES

**A robust and sturdy design in high strength steel makes this the preferred choice for all heavy trucks and trailers.**

*Comes with galvanized steel frame and steel platforms with painted 3-way foldable flip ramps in all loading directions.*

- **Sturdy:** Galvanised high strength steel lift. Stowed platform acting as rear under-run protection according to the new regulation.
- **Safe:** Foldable P-gates available for operator safety. Spiral cable or wall-mounted switchover control for safe operation inside the 3-way foldable flip ramps on both sides and rear side of platform.
- **Low maintenance:** All cylinders are fully protected by bellows with lift in stowed position. Corrosion protected hydraulic slider motor for demanding climates. An easy to access power pack makes for quick and simple maintenance.

The SZFTS is very easy to operate and very simple to maintain. It is the ideal lift to support your busy operation.

The SZFTS is suitable for all 12-26 tonne vehicles as well as trailers and semi-trailers
