

ZD 150/200

THE STANDARD DUTY SHORT OVERHANG TILTING SLIDER LIFT

The standard duty short overhang tilting slider lift for trucks with GVW over 12 tonnes.

The ZD comes with a powder painted high strength steel frame and a double folded aluminium platform. Short but still with a robust and sturdy design, this is the perfect solution for trucks with short overhang. A robust lift designed to maximise life of lift and vehicle up time.

- **Sturdy:** High strength steel in lifting mechanism makes this lift sturdy and durable. Stowed platform is acting as the rear under-run protection. Powder painted according to automotive standards.
- **Ease of Installation:** Width-adjustable mounting brackets and pre-installed power pack makes the lift easy to install.
- **Low maintenance:** All cylinders are fully protected by bellows when lift is in stowed position to prevent piston rod from 'pitting' and reduce risk of leaking. Easy to access power pack in mount tube protects the sensitive parts and makes the maintenance quick and simple. Heavy-duty slider motor available for corrosion prone environments.

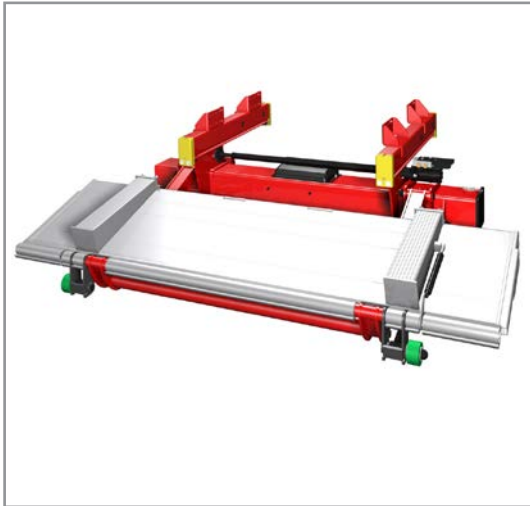

The slider lift is very easy to operate and very simple to maintain. It is the ideal lift to support your busy operation.

For all 12-26 tonnes vehicles

SUITABLE FOR

- Less than load
- Final mile deliveries
- Vehicle rentals
- Home delivery services

ZD 150/200 Specifications

Platform width	Up to 2450 mm*
