

DL500FG

A popular folding column lift for all 3.5 tonne dropside vehicles based on the new generation DL 500.

This is the industry's leading 500 kg folding platform column lift for 3.5 tonne vehicles. The aluminium folding platform gives more visibility and lower wind drag.

The latest generation of DL500FG has all the benefits associated with the DL500: Fully galvanised steelwork in high grade steel, protected power pack in the beam, and torsion assisted platform for ease of operation.

- **Increased payload:** 10% lighter with the same strength and rigidity.
- **Quick installation:** Pre-drilled columns and plug-and-play options.
- **Smooth operation:** Low noise with new chain drive. New, flush platform lock design.
- **Safer handling:** Enables forklift loading.

The DL500FG is very easy to operate and very simple to maintain. It is the ideal lift to support your busy operation.

For all 3.5 tonne dropside vehicles

SUITABLE FOR

- Construction
- Highways
- Tool hire
- Builders merchants
- Horticulture
- Local authorities
- Railways

DL500FG Specifications

Column width	1780-2260 mm in 8 standard widths*
Platform depth	850 - 1105 mm*
Lifting capacity	500 kg
Bed height min/max	800 mm/1060 mm
Platform	Aluminium
Weight of complete lift	140 kg
Max vehicle weight	3.5 t

*See specification sheet for details.

DL500FG OPTIONS

Safety

- Pair detachable side guards
- Fixed ramps and trolley stops
- Flashing lights
- Switch over control on dual control

Operation

- Standard Columns
- Short Column Application
- Battery Guard
