

SW150

THE FLEXIBLE SOLUTION FOR WASTE MANAGEMENT

Side or rear mounted bin lift.

Low installed weight with a range of tip heights makes this an ideal choice for small and large collection vehicles, especially for reduced access and missed bin collection applications.

Operated by a PTO system to enable higher volume operation rate. Fully compliant with regulations and operates with standard 240 – 360 litre wheeled containers (BS EN 840).

- **Versatile:** Various tip heights available.
- **Durable:** Designed and built with DEL column lift technology. Wear pads installed to maximise product life and minimise maintenance.
- **Low maintenance:** Integrated pivot bushes and a fully galvanised finish to prevent corrosion.
- **Easy to install:** Pre-drilled columns.

The SW150 is very easy to operate and very simple to maintain. It is the ideal lift to support your busy operation.

For 7.5 – 26 tonne vehicles with closed bodies

SUITABLE FOR

- Waste collection
- Local councils

SW150 Specifications

Column width	856 mm
Lifting capacity	150 kg
Tipping height min/max	2650 – 3035 mm
Weight of complete lift	From 245 kg
Max vehicle weight	26 t

SW150 OPTIONS

Safety

- Visual warning
- Audible warning
- 2-handed control
- I on dual controls

Operation

- Roof mechanism

Material

- Galvanised steel in frames

Installation

- Pre-drilled columns

Warranty

- 12 months parts and labour as standard
- Extended warranty
