

EM

EASY TO OPERATE, EASY TO MAINTAIN, CONVENIENT TO STORE

Lifting capacities of 2,500 and 3,300 lbs.

An efficient design with a two-section, folding platform that can be stored under the body floor, enabling easy access to the cargo area without activating the lift.

The liftgates are welded to the frame of the vehicle chassis to ensure optimum safety.

Recommended Segments

- Rental/Leasing
- Wholesale Distribution
- Home Delivery Services
- Retail

Reliable operation:

All key components are designed to perform at their best. The electrical system has a dedicated ground wire, fully potted toggle switches, and two solenoids to keep you moving. The hydraulic system is fully closed to keep contaminants out while the cylinder rod stays protected in transit since the cylinder is fully retracted. **Power down system is standard to provide consistent lowering and lifting speed regardless of the operating environment.**

Simplified maintenance:

External curbside pump for safe and easy access. Grease fittings at all major hinge points.

Safer operation:

The platform remains stowed with a hydraulic lock valve, no transit chain required.

EM Specifications	
Platform width	84"
Platform depth	48" to 50"
Lifting capacity	2,500 lb. and 3,300 lb.
Bed height	Min 37" to Max 54"
Platform	Steel or Aluminum
Ramp	Wedge
Weight of complete lift	786 lbs. to 842 lbs.

Standard Features

Safety	Performance	Maintenance	Installation	Material
Hydraulic lock valve	Full-dip (wedge) platform Power down Torsion spring assist	Grease fittings and maintenance free bearings	Preset for bed height range of 44"-54" Power unit pre-mounted and fully tested at the factory	Steel or aluminum platform Powder coat finish with zinc primer

Optional Features

Safety	Performance	Maintenance	Installation	Material
Cab shut off switch Cart stops	Dual controls Hand-held pendant control Single and two fixed step dock bumpers (single fixed step dock bumper ideal for lower bed height trucks) Walk ramp kit Snubber kit	Cycle counter	Remote mount pump kit Trailer subframe kit AUX battery kit Bolt-on bed extension Kits for other bed heights	Galvanized option
