

MDLBG

A LEVEL-RIDE PLATFORM COLUMN LIFTGATE WITH AUTOMATIC RETENTION RAILS

Lifting capacities of 1,600 and 2,000 lbs.

A safe, rail-type liftgate option for bottled gas applications with rear frame vertical tracks

The easy-to-operate liftgate features steel retention rails that automatically open to the operating position as the platform opens (automatically fold back down when the liftgate is returned to the stored position).

A steel diamond floor tread plate features, with optional aluminum, galvanized steel, expanded metal or bar grating

Reliable performance:

The dual chain system lifts the platform parallel to the truck bed, on even or uneven road surfaces. The electrical system has a dedicated ground wire, fully potted toggle switches, and one solenoid to keep you moving.

Safer operation:

Retention rails designed specifically for safe gas bottle transportation. LED lights create safety awareness for pedestrians and road traffic.

Low maintenance:

UHMW pads eliminates downtime and roller replacement costs.

Recommended Segments

- Bottle Gas

MBLBG Specifications	
Platform width	89"
Platform depth	36"
Lifting capacity	1,600 lb. and 2,000 lb.
Bed height	Min 36" to Max 57"
Platform	Aluminum
Ramp	16" x 45" Folding ramp
Weight of complete lift	792 lbs.

Standard Features

Safety	Performance	Maintenance	Material
Collapsible fence	Aluminum ramp	Fully enclosed power unit	Powder coat finish
Load safety device	Pressure compensated flow control valve	Charge line circuit protection	Aluminum platform
		Weather sealed electric controls	

Optional Features

Performance	Maintenance	Material
Above-floor travel	Cycle counter	Galvanized option
Remote hand held toggle switch control		
Hydraulic controlled close		
Auto-fold, level-ride platform
