

WDV GEN II

THE PREMIUM RAILGATE FOR TRUCKS AND TRAILERS

A heavy duty railgate with lifting capacities of 3,500, 4,500, 5,500, and 6,600 lbs.

Its innovative design ensures ease of operation and low maintenance requirements.

It features column style rails that enable its runners to move the platform via vertical hydraulic cylinders for ultimate strength and efficiency. The columns are welded to the rear frame of a trailer, stake, or truck body to ensure optimal safety.

The platform is conveniently stored over the rear door during travel and can be lowered out of the way for easy dock loading.

Recommended Segments

- Food and Beverage
- Rental/Leasing
- Wholesale distribution
- Construction
- Delivery
- Laundry
- Retail

Galvanized finish standard:

Extend product lifecycle with the best corrosion resistance finish in the industry.

Reliable performance:

Hydraulic circuit design and automatic self-leveling system allow the load to be offset without compromising capacity, and the platform lifts parallel to the truck bed, even on uneven road surfaces. Fully lubricated cylinders reduce seal wear and the closed hydraulic system keeps fluid contaminants out.

Safer operation:

Platform warning lights that automatically flash when the liftgate is in operation provide added visibility and enhanced safety.

Slip resistance:

The platform comes with a ridged aluminum knurled surface to help with grip, creating a non-slip environment.

Low maintenance:

UHMW floating slide pads with lifetime warranty eliminates downtime and roller replacement costs.

WDV Specifications	
Platform width	82" or 88"
Platform depth	60", 72" & 84"
Lifting capacity	3,500, 4,500, 5,500, and 6,600 lbs.
Bed height	Min 40" to Max 57"
Platform	Knurled aluminum
Ramp	12" fixed for 60" and 72" depth platform 16" folding available for all depths
Weight of complete lift	1,407-1,537 lbs.

Standard Features

Safety	Performance	Maintenance	Material
Flashing platform warning lights	LED tail light configuration Hydraulic power open/close	Free floating design slide pads with life-time warranty	Galvanized finish Aluminum platforms
Knurled aluminum platform surface	Power down, gravity down Series hydraulics	Dedicated ground wire	
LED marker lights	Dock loading capability with heavy duty dock bumpers Mechanical travel latch Dual pump and motor for 5,500 and 6,600 lbs. models	Battery indicator light on switch Pressure gauge	

Optional Features

Safety	Performance	Installation
Cart stops	Battery charging kit	Truck and trailer installation kits
Porch light with timer	Dual pump and motor for 3,500 and 4,500 lbs. models	Bolt-on applications
Cab shut off	Solar charging Chain sleeves Auxiliary switch, pump mounted Handheld remote	Auxiliary battery box Header kits
