

DD

THE MULTI LEVEL LOADING RAIL GATE

Lifting capacities of 1,600 and 2,000 lbs.

The DD series unique feature of lifting 120" from the ground is ideal for double or even triple stacking material into a truck body or trailer to maximize your payload.

With features like Levelride and chain and sprocket drive, the DD series is the liftgate that provides high performance and easy maintenance.

Recommended Segments

- Poultry/Livestock
- Mobile Service Units

Reliable performance:

The dual chain system lifts the platform parallel to the truck bed, on even or uneven road surfaces. The electrical system has a dedicated ground wire, fully potted toggle switches, and one solenoid to keep you moving.

Safer operation:

Cargo railing helps to prevent personnel and cargo from falling off of the platform, and the Load Safety Device (LSD) prevents the platform from falling in event of a chain break.

Easy maintenance:

Easy to remove plugs in the access door to allow daily greasing.

DD Specifications	
Platform width	89"
Platform depth	54"
Lifting capacity	1,600 and 2,000 lbs.
Bed height	Min 42" to Max 120"
Platform	Aluminum
Ramp	12" Fixed ramp
Weight of complete lift	1,365 to 1,380 lbs.

Standard Features

Safety	Performance	Maintenance	Material
Charge line circuit protection	Level ride Torsion bar assist Built-in 4 LED light kit	Dedicated ground Pump box protected	Aluminum platform Powder coat finish

Optional Features

Safety	Performance	Maintenance	Installation	Material
Cab shut off switch	Remote hand held push button switch control 102" wide platform	Cycle counter	Stainless steel bolt-on kit	Galvanized option
