

ZEPRO ZDK 250

THE NEW GENERATION OF HEAVY LIFTS

The standard duty 2500 kg cantilever lift.

A development of the well proven Z-series, with its robust design makes this the economical choice for all heavy vehicles wanting to maximise up time. Comes with a powder painted high strength steel frame and platforms in different materials, sizes, and options.

- **Sturdy:** High strength steel in lifting mechanism and a boxed arm design makes this lift sturdy and durable. Adjustable rear under-run protection approved for the new regulation. Pins and bushings designed for extended life.
- **Ease of Installation:** Mounting kits for all major truck manufacturers and width-adjustable mounting brackets. Adjustable under-run bar to fit any truck or trailer. Pre-routed power pack prepared for a number of controls including radio and foot control.
- **Low maintenance:** Corrosion protected cylinder rods with bellows to extend life of cylinders. Ozone resistant thermoplastic hoses. Power pack equipped with water and dirt absorbing oil filter inside mount tube makes the maintenance rare, quick and simple. Powder painted according to automotive standard.

The ZDK 250 is a very flexible lift with a number of options designed to work a life as your faithful companion. It is the ideal lift to support your busy operation

The ZDK 250 is made to help maximise payload
