

ZS 33/44 MK2

THE DURABLE SLIDER LIFT FOR TRUCKS & TRAILERS

THE HEAVY DUTY SLIDER LIFT WITH A LIFTING CAPACITY OF 3,300 AND 4,400 LBS

The ZS features a powder coated, high-strength steel frame and platforms in different sizes, and options. Robust and sturdy design with corrosion-protected cylinders and the new solid state control system makes this the perfect choice for all heavy trucks. A robust lift designed to maximize vehicle up-time and lift lifecycle.

The slider lift is very easy to operate and very simple to maintain. It is the ideal lift to support your busy operation.

- **Reliable performance:**

High strength steel used in the lifting mechanism makes this lift sturdy and durable. An efficient hydraulic system makes the operation fast, regardless of weather conditions. A stowed platform acts as the under-ride bumper.

- **Low maintenance:**

All cylinders are fully protected by bellows. An easy to access power pack in the mount tube protects the sensitive parts and makes

maintenance quick and simple.

The ZS features corrosion-resistant material in all pins and drives.

- **Intuitive control unit:**

Control unit with enhanced user interface and LED lights to guide the operator. Plug & play installation using quick connectors.

- **Easy installation:**

Width-adjustable mounting brackets, integrated control unit bracket, and a pre-installed power pack makes the lift easy to install.
