

WDVBG

A BOTTLE GAS COLUMN LIFTGATE WITH AN AUTOMATIC SELF-LEVELING SYSTEM

Lifting capacities of 3,500 and 4,500 lbs.

A low maintenance, easy-to-operate liftgate option for bottled gas applications.

The bottle gas liftgate offers maximum stability and features steel retention rails that automatically open to the operating position as the platform opens and automatically folds away when the liftgate is returned to the stored position.

The platform is a lightweight aluminum material that features a knurled surface for safety, with optional galvanized steel diamond plate.

Reliable performance:

Hydraulic circuit design and automatic self-leveling system allow the load to be offset without compromising capacity, and the platform lifts parallel to the truck bed, keeping the bottle upright even on uneven road surfaces. Fully lubricated cylinders reduce seal wear and the closed hydraulics system keeps fluid contaminants out.

Safer operation:

Retention rails designed specifically for safe gas bottle transportation. LED lights create safety awareness for pedestrians and road traffic.

Slip resistance:

The platform comes with ridged aluminum knurled surface to help with grip, creating a non-slip environment.

Low maintenance:

UHMW floating slide pads with lifetime warranty eliminates downtime and roller replacements.

Recommended Segments

- Bottle Gas

WDVBG Specifications	
Platform width	82" or 88"
Platform depth	36" or 42"
Lifting capacity	3,500 lb. and 4,500 lb.
Bed height	Min 40" to Max 57"
Platform	Aluminum or steel
Ramp	16" x 45"
Weight of complete lift	2,126 lbs. to 2,155 lbs.

Standard Features

Safety	Performance	Maintenance	Installation	Material
Saloon door fence	Hydraulic power open/close Power down (with Gravity down on demand) Mechanical lock Series hydraulic circuit design LED tail lights configurations Battery status indicator on switch	Lifetime warranty UHMW slide pads Thermally protected motors Bottom stop for dock loading Pressure gauge	Pre-mounted marine potted toggle switches Single pump and motor box	Galvanized finish Knurled aluminum platform

Optional Features

Safety	Performance	Maintenance	Installation
Cab shut off switch	Handheld remote Batteries Dual pump and motor	Cycle counter	Auxiliary Battery Box Telescoping header kit Truck and trailer kits
