Large, Side Loading Platform
- Special Application
Food Distribution Gate

Products shown may feature optional equipment. Content subject to change without notice.

**GTSL SERIES**

**SIDE LOADER GATE**

3,300 lb. - 4,400 lb. Capacities

**STANDARD GTSL SERIES ADVANTAGES INCLUDE:**

- Ideal for loading and unloading in confined spaces
- Reduced Maintenance™ features:
  - Fiberglass-reinforced Teflon® bearings at key pivot points, grease zerks, and closed-loop hydraulic system
  - Cycle counter aids in forecasting maintenance checks
  - Thermally protected super duty motor
  - (2) 12-Volt Group 31 Batteries
  - Powder coat finish on key liftgate components

- INSTALLATION
  - Universal side-mount kit (for steel or aluminum cross members) minimizes install time
  - Easy-Mount, bolt-on design for most dry-freight & refrigerated trailers
  - Compatible for both swing-type and roll-up doors
  - 100% Pre-Assembled & Tested before leaving the factory
  - Dual mud Flaps included to protect gate from road debris

- SAFETY
  - Meets or exceeds all TMC Electrical Wiring Recommended Practices
  - Roll-out Guard keeps your load on the platform
  - Hydraulic motor brake and cylinder lock ensures the platform stays in place
  - Locking chain secures the liftgate
  - Safety Reflectors (option to upgrade to flashing lights recommended)

**PLATFORM**

- 1/2 Steel (main), 1/2 Aluminum (folding)
- Large, Single-Fold, Level Ride
- Stores completely under trailer

The rear mounted GT and the side load GTSL help to maximize delivery efficiency with two liftgates.
GTSL SERIES
SIDE LOADER GATE

Ideal for loading and unloading in confined spaces

Thermally protected power unit

Optional Cart Stop

Optional Side Access Ramp
