

ZEPRO Z 2500

THE NEW GENERATION OF HEAVY LIFTS

The heavy duty 2500 kg cantilever lift.

An advanced and yet robust design makes this the top line choice for all heavy vehicles with high load capacity wanting to maximize up-time. Comes with a powder painted high strength steel frame and platforms in different materials, sizes, and options

- **Sturdy:** High strength steel in lifting mechanism and a boxed arm design makes this lift sturdy and durable. Adjustable rear under-run protection approved for the new regulation. Pins and bushings designed for extended life.
- **Ease of Installation:** Mounting kits for all major truck manufacturers and width-adjustable mounting brackets. Adjustable under-run bar to fit any truck or trailer. Pre-routed power pack prepared for a number of controls including radio and foot control. Trailer mounting option available.
- **Low maintenance:** Corrosion protected cylinder rods with bellows to extend life of cylinders. Ozone resistant thermoplastic hoses. Power pack equipped with water and dirt absorbing oil filter inside mount tube makes the maintenance rare, quick and simple. Powder painted according to automotive standard.

The Z 2500 is made to help maximise payload
