

Hiab Multilift XR 10S

XR Medium Range Hooklifts

More payload with optimised design

Strong, robust and exceptionally light - a contradiction in terms but Hiab Multilift XR 10S, the latest addition to the Hiab Multilift XR hooklift family, is all that and much more! With XR 10S you can carry bigger payloads and get a quick return on your investment.

More power to your business

The new Hiab Multilift XR 10S with 10 tonne lifting capacity offers you maximum performance and unparalleled functionality. The equipment's low weight combined with extreme strength make it an ideal tool for all your purposes. Make the most of your truck by fitting it with an XR 10S - add a Hiab crane to further enhance your productivity. Carry demountable bodies up to 6 metres long and handle bigger payloads more safely and more reliably than ever before.

Safety the priority

As in all Hiab Multilift demountables, safety is a key priority in the XR-series. Safety features include load-holding valves directly on the cylinders and a tipping lock mechanism. The XR-series meets all the minimum requirements of the EU's Directive on the Safety of Machinery.

Increased versatility and larger payloads

We used the latest 3D-CAD methods and modern production technology to design and manufacture this new range, which minimised the welding needed in construction and resulted in a stronger structure. The exceptional low weight / high strength ratio enables larger payloads, enhances the versatility of the vehicle and maximises its usage.

TECHNICAL DATA

TYPE	XR 10S				
CAPACITY (kg)	10,000				
GVW OF THE VEHICLE (t)	15				
CONTAINER LENGTH (internal) (m)	3.0 - 4.0	3.5 - 4.5	4.0 - 5.0	4.0 - 5.5	4.5 - 6.0
G-LENGTH (mm)	3250	3650	4150	4600	5100
EQUIPMENT WEIGHT (kg)	990	1040	1070	1110	1150
TIPPING ANGLE (°)	50				
HOOK HEIGHT (mm)	1450/1570				
BODY LEVEL (mm)	220				
MAX. OPERATING PRESSURE (MPa)	30				
RECOMMENDED OIL FLOW (l/min)	35 - 50
