**DELIVERY MADE EASY**

# WALTCO FM1000

## THE ULTIMATE FINAL MILE SOLUTION

Final mile delivery is a booming market, but there is a constant battle to improve efficiency as the market sector evolves from basic goods to bulky, expensive home goods.

Keep delivery promises and deliver more, faster and safer, for both driver and cargo, with the WALTCO FM1000. It gives you all the advantages of a liftgate, without the added weight.

### Faster Delivery

The innovative solution, WALTCO FM1000 is a full-closure liftgate functioning as a combined rear door and liftgate. It can safely handle 1,000 pounds of cargo as soon as you open up the back of your truck by lowering the liftgate – no wasted delivery time.

WALTCO FM1000 reduces liftgate operation time by 45%, when compared to a traditional flipaway liftgate.

### Lighter Weight

The WALTCO FM1000's integrated back door and liftgate saves weight. Fuel consumption is cut by up to 2.5% since it weighs 500 pounds less, which reduces the carbon footprint.

### Safer fleets

Using a liftgate means safe operation for both cargo and delivery drivers. Ergonomic operation minimizes workplace accidents and boosts driver satisfaction.

You won't have to worry about delivery drivers compromising safety for efficiency since the FM1000 acts as the rear door and must be utilized to access payload.

### Improved Uptime and Utilization

FM1000 is equipped with a gateway and enabled for connected services. HiConnect™ telematics is a Connected Service that maximizes uptime and keeps you one step ahead with next-generation intelligence.

Free for one year, HiConnect™ gives you access to real-time data and alerts about equipment conditions, while helping you increase efficiency, productivity and safety.

You get a 5-year extended warranty with the purchase of a 5-year HiConnect subscription.

## SAFER OPERATION

- Safety fences keep cargo and drivers safe.
- Cart stops help keep control of loads, preventing them from falling off the platform.

## FASTER DELIVERY

- FM1000 liftgate operation time is nearly twice as fast as a traditional flipaway lift.
- Offers improved goods unloading efficiency with all the safety risks removed.

## LIGHTER WEIGHT

- Five hundred pounds lighter than a traditional flipaway.
- Lightweight WALTCO FM1000 saves up to \$1,250\* over its lifetime.

\* Fuel savings based on 2.5% per hauled 500/lbs.

# QUICK FACTS

Sold in collaboration  
with Morgan Truck Body

## Platform Features

- Large aluminum platform size - 50" with 8" fixed ramp
- Cart stops
- Safety rails
- Safety flags
- Load safety device on each runner

## HiConnect Standard Package

- Free one year

Model	Capacity	Platform	Ramp	Body Type	Body Size	Approx. Wgt.
