

HIAB FRAMEWORKS™

MEET THE NEXT GENERATION
INCLUDING FLEXIBLE TWO-IN-ONE SOLUTION

TAKING FRAMEWORKS™ TO THE NEXT LEVEL

Sturdy and reliable, HIAB FrameWorks are precisely engineered to ensure the stability of HIAB cranes mounted on trucks. They reinforce the truck chassis and absorb the forces caused by the crane, enabling users to get the most out of their equipment. Sold with complete attachment kits, our FrameWorks are quick and easy to install.

- Rugged subframes with extreme torsion rigidity
- Engineered for maximum safety – controlled production process, FMEA analysis, FEM calculations
- Increase stability by up to 40%
- Modular system minimizes design work
- Quick and easy to install – reduces standard installation time by 75%
- Durable, thanks to complete E-Coated construction, including nDurance primer and final top layer of anti-corrosion paint

NEW FLEXIBLE, TWO-IN-ONE SOLUTION

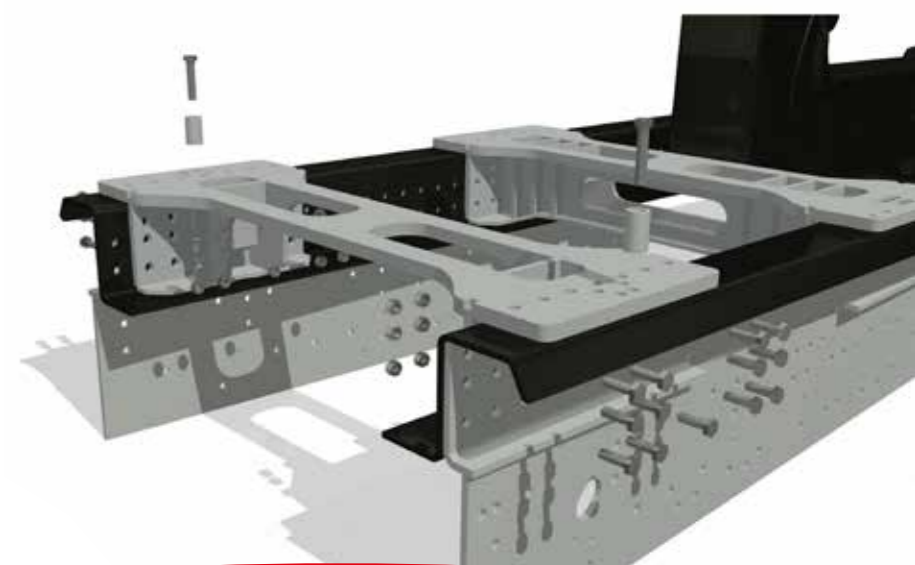

Meet MultiBeam, the latest product in the FrameWorks family. This unique solution consists of two beams and an attachment kit – allowing you to mount a crane and a hooklift onto the same vehicle. Simultaneously extending the functionality of your equipment and reducing workload, MultiBeam meets the productivity needs of users in the waste handling, recycling and forestry industries.

- Unique two-in-one solution for mounting a crane and a hooklift on the same truck
- Accommodates many combinations of hooklifts and cranes, recycling and forestry cranes
- Durable, thanks to complete E-Coated construction including nDurance primer and a final top layer of anti-corrosion paint
- Engineered for maximum safety – controlled production process, FMEA analysis, FEM calculations
