# WHEN TIME IS CRITICAL

Your customers face expensive downtime when a hose on their Hiab equipment fails. As their trusted repair shop, you need to have critical spares like Hiab original hoses on hand, but in a flexible way.

The answer is Hiab Hoses on Demand with 8/24/72 hours delivery times. But sometimes even this service is not fast enough.

The solution? Produce the hoses at your workshop with Hiab's smart onsite solution.

## Introducing Hoses on Demand Onsite

Hoses on Demand Onsite is your opportunity to produce original Hiab hoses onsite at your workshop. This way, you can guarantee you have the right hose available when your customer urgently needs one.

Hiab has developed a kit to help you produce Hiab original hoses on site. You get everything from original hoses in 25 m length, end fittings, the production equipment and instructions how to produce high quality hoses. Everything available at [webshop.hiab.com](http://webshop.hiab.com)

Always use original Hiab hoses at your workshop. Read more at [hoses-on-demand.hiab.com](http://hoses-on-demand.hiab.com)
